## Features

### A FEELING OF COMFORT

Urethane Cushion

Waving Belt

S-shaped Spring

Using the same wave spring (S-shaped spring) as luxury sofas, the #225's contoured upholstery provides just the right amount of flexibility whilst firmly supporting the body. The wave spring's high level of durability also means that the seat can withstand regular heavy usage without sacrificing comfort. The surface is made up of

urethane cushions and panels - these ergonomic features provide both comfort and stability. The signature 'waving belt' firmly supports the lower back, maintaining perfect posture even when in recline.

### COMFORTABLE RECLINING ANGLES (RECLINING: 30° ~ UPRIGHT: 75°)

The #225 is equipped with a stable reclining mechanism to accommodate a full range of salon services. By manually turning the handle, the back and legrests move and can also achieve a comfortable reclining angle.

### HEIGHT-ADJUSTABLE HEADREST (8 SETTINGS)

The removable headrest can be adjusted to 8 different height settings. Adjust the headrest when reclining, or remove it when cutting. This function allows for adjustments to customer height and services performed.

### LUXURY PADDED ARMREST

The armrest is made of special luxury padded cushion and comes fully equipped with a towel holder and a hook for easy, seamless service. Takara Belmont is unique for its attention to detail, specifically tailored to salon work.
